

# Century Tangibles Group (Private)

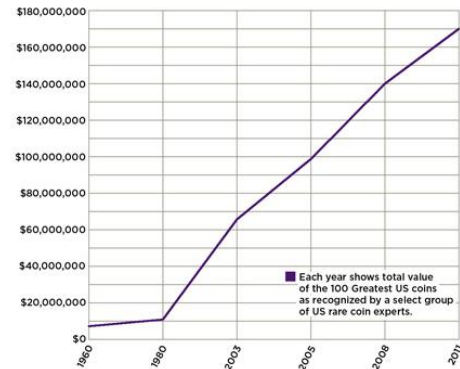

CT Group, founded in 2010 and headquartered in Irvine, California, is a full service

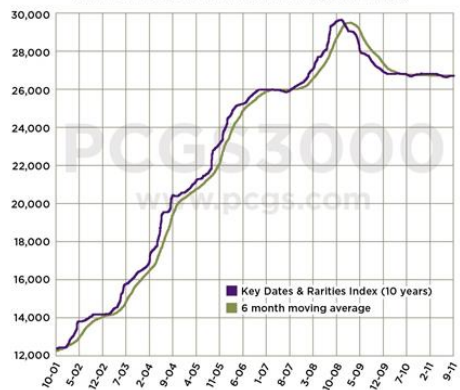

rare coin and bullion investment firm providing institutional and individual investors the opportunity to invest in a tangible asset portfolio. Widely considered the ultimate form of financial insurance, tangible assets have historically provided protection against periodic setbacks suffered by stocks, bonds and the dollar, offered substantial potential for growth of capital and delivered a wide range of diversifying benefits to investment portfolios. The company's portfolio packages are tailored specifically to clients' particular investment goals and comprised of a selection of rare U.S. coins, semi-numismatic coins and bullion. The company's clients benefit from over one hundred years of collective industry experience of the management team led by the company's founder, Todd Griffith. Mr. Griffiths is a third-generation numismatist and one of the leading experts in the U.S., who has traded over 80 of the 100 greatest U.S. coins and has managed over \$1 billion in rare coin transactions.

Dedicated to protecting the interest of its investors, the company acts as a dealer with direct access to the trading floor at the major procurement sites and auctions, eliminating the need to rely on third party agents for portfolio fulfillment. The company also addresses the concerns of investors by focusing on business ethics and gaining clients' trust through education, transparency and accountability. The company's clients have complete real-time access to their account information through a proprietary customer relationship software system. Among its educational efforts, the company publishes Tangible Times, a monthly intelligence report on the macroeconomic and geopolitical factors influencing the broad investment markets in general and the tangible asset markets in particular, offers over 60 hours of online lectures and multi-media content with detailed information on all aspects of numismatic investments through its interactive e-learning center, University of Rare Coins, and broadcasts The Todd Griffiths Show, a weekly blog talk radio program with expert interviews, guest speakers and live calls from the audience.
